## Description:

The sleepy, eastern Washington wheat town of Antioch has become a gateway for the supernatural—from sightings of angels and a weeping crucifix to a self-proclaimed prophet with an astounding message. The national media and the curious all flock to the little town—a great boon for local business but not for Travis Jordan. The burned-out former pastor has been trying to hide his past in Antioch. Now the whole world is headed to his backyard to find the Messiah, and in the process, every spiritual assumption he has ever held will be challenged. The startling secret behind this visitation ultimately pushes one man into a supernatural confrontation that has eternal consequences.

Frank Peretti first got my attention as an author when I read *This Present Darkness*. When I started reading *The Visitation*, I wasn't really sure where the story was headed. There seemed to be a lot of back story that I thought wasn't really going anywhere - boy was I wrong! Yes there was quite a bit of back story in the beginning of the book, but it all makes perfect sense by the time you get to the end. I obviously don't want to give anything away, but the ending is amazing. You may think the book is slow, but it gets better and better, faster and faster as you get deeper into the book. Toward the end of the book you can't turn pages fast enough!
